ReadMe for Drivers of nocturnal water flux in a tallgrass prairie, OKeefe K, Nippert J

2018-02-06

This readme file describes the variables within the "Seasonal_Environmental_Data.csv" data file accompanying the above publication. The "Seasonal_Environmental_Data.csv" file includes environmental data collected daily during the 2014 and 2015 growing seasons. Missing data are indicated by the code "9999." For any further queries please contact okeefe4@wisc.edu.

Variable	Description
Year	Year of data collection
DOY	Day of year of data collection
Soil_moisture	Average daily soil moisture (v/v)
TAIR_N	Air temperature (°C) measured at 23:00 h
VPD_N	Vapor pressure deficit (kPa) measured at 23:00 h
TAIR_D	Air temperature (°C) measured at 11:00 h
VPD_D	Vapor pressure deficit (kPa) measured at 11:00 h
DPPT	Daily precipitation amount (mm)
